## 2020 conference(s) announcement and its PR, Major advantages/challenges of venue, subject

**Mahdiyar Shahbazi**

*Institute of Food Technology, University of Natural Resources and Life Sciences (BOKU), 1190 Vienna, Austria, E-mail: shahbazim00@yahoo.com*

After successful completion of 2nd **International Conference on Pharmaceutical Analysis & Analytical Chemistry**, held on **August 02 – 03, 2019, Chicago, USA at Country Inn & Suites by Radisson, Elk Grove Village/Itasca**. Lexis Conferences with great pride and honour announcing its **3rd International Conference on Pharmaceutical Analysis & Analytical Chemistry** which is going to held in **Montreal, Canada** during **April 3-4, 2020**. This Conference is mainly focused on the **THEME: "Collaboration of advanced Pharmaceutical Analytical Techniques"**.

### 2020 Conference Targeted Audience

This time Pharmaceutical Analysis 2020 want to bring huge number of participants from around the globe focused on learning about Pharmaceutical Analytical Techniques and its advances. This is your best opportunity to reach the largest assemblage of participants from Pharma research community that is from academia, Analytical entities, Laboratory Technical Departments, regulatory agencies, R&D departments, related associations, societies and also from government agencies, pharmaceutical, biomedical and medical device industries.

[Pharmaceutical Analysis 2020](#) will discuss various disciplines involved in the field of Pharmaceutical Analysis & Analytical Chemistry procedures and Validation. It intend to educate health care researchers about design, operation, organizing, research computing, regulatory aspects and reporting of Analytical Techniques. This conference conduct presentations, distribute information, meet with current and potential scientists, make a splash with new Pharma analytical research developments, and receive name recognition at this 2-days event by sharing and Exploring of Knowledge in Present trending Research field of yours. You can also find out how innovators are minimizing the gap between product development and adoption, conduct demonstrations, distribute information, meet with current Scientists, and make a blazon with a new research, in Pharmaceutical Analysis and its Techniques.

This Conference serves as a Stage for the international experts in the area of pharmaceutical analysis and analytical chemistry throughout the world. We cordially invite all the eminent Scientists, researchers, students, industry representatives, Business entrepreneurs & academicians, working in these exciting areas. All come together to Share or explore their Research works and Ideas, Special welcome to the delegates in all fields to gain or gathering of some information for their future.

3rd International Conference on Pharmaceutical Analysis & Analytical  
Chemistry

Apr 03-04, 2020 | Montreal, Canada.

Volume 9. Issue 2

Submit your Abstract for **Pharmaceutical Analysis 2020** Conference to the session of your interest. You can select from the list of topics/tracks or else you can select your own topic of interest related to Pharmaceutical Analysis & Analytical Chemistry.

### About Montreal Canada

**Montreal** is the most populous municipality in the Canadian province of Quebec and the second-most populous municipality in Canada. Originally called Ville-Marie, or "**City of Mary**", it is named after **Mount Royal**, the triple-peaked hill in the heart of the city.

In 2016, the city had a population of 1,704,694, with a population of 1,942,044 in the urban agglomeration, including all of the other municipalities on the Island of Montreal. The broader metropolitan area had a population of 4,098,927. French is the city's official language and is the language spoken at home by 49.8% of the population of the city, followed by English at 22.8% and 18.3% other languages. In the larger Montreal Census Metropolitan Area, 65.8% of the population speaks French at home, compared to 15.3% who speak English. The agglomeration Montreal is one of the most bilingual cities in Quebec and Canada, with over 59% of the population able to speak both English and French. Montreal is the second largest primarily French-speaking city in the world, after Paris. It is situated 258 kilometres (160 mi) south-west of Quebec City.

Historically the commercial capital of Canada, Montreal was surpassed in population and in economic strength by Toronto in the 1970s. It remains an important center of commerce, aerospace, transport, finance, **pharmaceuticals**, technology, design, education, art, culture, tourism, food, fashion, gaming, film, and world affairs.

Montreal has the second-highest number of consulates in North America, serves as the location of the headquarters of the International Civil Aviation Organization, and was named a UNESCO City of Design in 2006. In 2017, Montreal was ranked the 12th most liveable city in the world by the Economist Intelligence Unit in its annual Global Liveability Ranking, and the best city in the world to be a university student in the QS World University Rankings.

Montreal has hosted multiple [international conferences](#) and **events**, including the 1967 International and Universal Exposition and the 1976 Summer Olympics. It is the only Canadian city to have held the Summer Olympics. In 2018, Montreal was ranked as an Alpha– world city. As of 2016 the city hosts the Canadian Grand Prix of Formula One, the Montreal International Jazz Festival and the Just for Laughs festival.

**Best Regards**
