

Scientific Exploration on Magnetism and Magnetic Materials

MARTA CIALDEA

Associate professor, Engineering department, Roma Tre University, Italy, E-mail: cialdea@dia.uniroma3.it

The conference deliberations will be on the theme **“Reaching the heights of universe with novel ideas of the Magnetic Materials”**. Magnetism conference provides an excellent opportunity to all the categories of people like renowned academic Scientists, Engineers, Researchers and Scholars. We can say that for students this occasion will be great thrilling to learn and explore different views from both academia and industrial perspective. Each attendee can experience high quality research contributions, latest and new advanced technologies and developments in the current field. The aim of the conference is to acquire a brief research of conceptual, empirical, experimental, or theoretical work in all areas of Magnetism and Magnetic Materials. The conference typically incorporates keynote sessions, plenary sessions, poster sessions, workshops, special sessions, guest lectures, panel discussions which includes many prominent International Speakers. Young Researchers have the chance to showcase their awareness, listen to changed opinions and gain new things in this current research field.

The Conference attendees can take benefit from great learning chances which will be helpful for their research career also to update, enhance and broaden your strength in the field. Also they can have a chance to collaborate with your professional colleagues from the same field which generates networking opportunities.

About Venue:

Vancouver is a coastline seaport city in western Canada, located in the Lower Mainland region of British Columbia. Vancouver is constantly named as one of the top five worldwide cities for liveability and quality of life. With its scenic views, mild climate, and welcoming people, Vancouver is known everywhere the world as both a popular tourist attraction and one of the best places to live.

Vancouver is also one of the most culturally and linguistically varied cities in Canada with 52% of the population speaking a first language other than English. Vancouver has presented many international conferences

and events, including the 2010 Winter Olympics and 2010 Winter Paralympics. Vancouver is on the southwest corner of the area of British Columbia, surrounded on three sides by water. Vancouver is one of North America's most under-rated tourist destinations. It is a modern, travel-friendly city with a single mix of cultures. The relatively mild Pacific Northwest climate and an active restaurant and nightlife scene are other features that make this such an attractive city. Royal mountains, sparkling ocean, rainforests and beautiful foliage throughout all four seasons make Vancouver one of the most beautiful cities in the world. Canadians are known for our friendly nature.
