The source of the fairy tale "Alice in Wonderland" is to start from a little girl Alice. In real life, Alice's real name was Alisli Del. Because Alice's father is Carol Dean of the new work units, Carol and Alice met for the first time to watch the Oxford rowing race in 1856 February on the train. In May of that year, Carol first became interested in photography contest, when shooting the church, to meet with the three sisters of the Alice family, Carol invited the three beautiful young girls, from members of the Carol and Alice family have intercourse. In the summer, Carol and Alice they boating on the back, for inexplicable reasons, Alice's mother Carol and her daughter have prohibited any contacts, so Alice and Carol's relationship began to slowly cooling down. Alice is the most likely to arouse Carol childhood memories of the little girl, "Alice in Wonderland" is Carol request of Alice stay up all night write down, a total of 18000 Chinese characters. The story of Lee Alice and the real Alice, elusive, character to attract people, this is a great realistic girl image[1].

Alice is a sincere, simple little girl, in the second chapter "tears" in the pool, Alice comfort mouse said: "...... I hope to be able to put our cat Dana to you see see. As long as you can see her one eye, I think you'll like the cat, but she is a very lovely no quarrel things." Naive, innocent Alice forget the cat is the natural enemy of the rat, think mice like the thing that oneself like, with her pure point of view, whether human or animal, treat each other when different species can love each other, she really want to comfort the victim for the mouse, it is naive, compassionate Alice.

Good

Alice is one of a pair of mark full of big eyes and long golden hair girl, her love of fantasy, for all things are full of curiosity, innocent and lively, beautiful good. She is always thinking of others feelings and animal equality. In the first chapter, "fall down the rabbit hole" in the face about to drop Alice didn't know cave, his may meet danger still think "she didn't want to throw the empty bottle down, afraid that will put the following what people to death, therefore, in her falling after a bowl cabinet she tried to put the empty bottle, into the bowl". In the eighth chapter "croquet" Queen "you will never be the words beheaded" is the Alice of three cards the gardener said, three gardeners will be queen beheaded, so seek protection from Alice. Alice even in the face of these to catch his gardener and motionless to cut don't head queen, still bravely and the three gardeners.

Beauty

The goodness of Alice can be seen everywhere in the novel, Alice is really good quality is kind of children. Alice it is full of a sense of justice, brave, to face the grim Wonderland also not afraid of a little girl, even in the face of brutal force, she also fight, reflecting her loving the humanitarian spirit. In the absurd and unjust court testimony, she dared to protest against the defendant, framed, dismissed the irrational referee king bravely. Here, the protagonist Alice depending on their own courage and fight evil forces, unlike many fairy tale hero need to rely on outside the magic power of the help. This is the tale of the out of the ordinary place, make this work with independence and reality.

The son of nature

Animal should enjoy the equal rights with humans, as early as in sixteenth Century, British Chester County issued about banning animal cruelty laws, banning dogs biting the bear longitudinal decree. In seventeenth Century, the English poet Alexander Bobai also said, God created other existence goal, not just for the convenience of man. In 1822, Richard Martin advocated the British court through human history the first article on "the prohibition of abuse animals act" (Martin act). Later, Martin also and other UK some humanitarian established "banning animal cruelty association". During this period, there have been many British people aware of the importance of animal protection and animal rights maintenance. Carol that have a sincere child English writer, all deeply conscious of the nature should enjoy the same rights and human.

"THE SON OF NATURE" ALICE HUMANITARIAN CONSCIOUSNESS OF EQUALITY

According to the above discussion shows, the natural son of Alice with animal equality, harmony consciousness, but in "Alice in Wonderland" everywhere embodies the inequality is not harmonious behavior, the writer in the treatment of Alice in the face of all sorts of inhumane acts, through humor, absurdity to promote Alice's equality humanitarian consciousness.

As in the seventh chapter "mad tea party" the Hatter thought Alice's hair should cut, Alice's response was: "you need to learn not to others has commented" Alice said sternly, "this is not polite." Alice accused the Hatter behavior here, because Alice in real life education was formally, big people feel right and demand of children also do this right, the Hatter criticism
to Alice embarrassed. We can see that the dream is on the real life of pedantic dogmatic sarcasm and disdain, as in a dream, all the people do not need to comply with the so-called etiquette, Alice accused of keeping people in dreams and animal are inconceivable.

In the next eighth chapters "the Queen's croquet game" the king does not allow the Cheshire cat staring at him, Alice felt that the king's idea is wrong, she thought the animal should be equal with anyone, "a cat may look at a king, in which book to read on, but don't remember in what place." Although Alice in the dream, but still have to all equality consciousness, this is a kind of consciousness of writer Carol gave Alice, he hope Alice don't be dogmatic corrosion real life marks himself was a kind heart[2].

"Alice in Wonderland" is popular in England in the age of Vitoria. During this period, the British foreign territory wantonly expansion, Britain has become the "world factory", the British people's thought is superior, think people have high and low points, and the animal is an unequal relationship, man is the animal host. Perhaps because of the feudal thought such a bound child real growth, let a writer Carol gave little Alice equality consciousness. Critical satire in real life who have no sense of equality of human. In the dream, the absurd things Alice encountered is the albedo of real life. For example the everywhere about lessons Duchess, regardless of big and small can draw lessons to teach children "adult" let Alice got tired of her, and a move to cut someone's head poker queen, stupid and ignorant king, these are the epitome of the bourgeoisie. These people be opinionated education, thought the children so they will always do as one is told to. Sense of unfairness in the story as a child always let Alice out of breath, and to resist.

Inequality and justice embodied in the novel "Alice in Wonderland" in the Alice mutual contend, is a system of thought the writer structure. He passed Alice to express when many with himself, have advanced thoughts to protect animals, animal liberation consciousness. In the use of his virtual fairy tale "from childhood, hope as the society in the future pillars of the child, has an equal and harmonious humanitarian spirit.

It is such a weird little animal and absurd world of Kingdom of cards, embodies the unique humorous stories.

Secondly, "Alice in Wonderland" in the structure using the typical method of humorous literature in misunderstanding and coincidence. In the story, Alice met a mouse, Alice thought the mouse like cats and dogs, and then with the mouse to discuss their cats and dogs, the result let Alice misunderstanding and mouse to escape. She thought that the bird like with your cat to play, then talk about the birds their cat how to catch the bird thing, harm the birds dare not make friends with Alice. In order to let readers uproarious, Carol deliberately set up Alice in the tree hole mistakenly eat magic cake, Alice immediately like a balloon is inflated to become big and round, she scared and couldn't help crying. Her in order to open the door, after eating the cake turned surprisingly hours, was my own tears gathered into a big pond of water rushed out the door. Various coincidence setup, make readers laugh.
