

## Waste Management Policy

**Koech Renson**

University of Nairobi, Kenya

### Abstract

Being able to analyze various environmental impacts from variety of hazards and pollution. It's my privilege to help my country and county .governments to really realize the importance of waste management and sewage treatment

### Policy Objectives

The objectives of this policy are:

- To ensure that waste management is performed in accordance with all waste
- legislative requirements, including the duty of care, and to plan for future legislative changes and to mitigate their effects.
- To minimise waste generation at source and facilitate repair, reuse and recycling over the disposal of wastes in a cost effective manner.
- To provide clearly defined roles and responsibilities to identify and co-ordinate each activity of the waste management.
- To promote environmental awareness in order to increase and encourage waste minimization, reuse and recycling
- To invest into the expansion of recycling opportunities on the University campus and transform waste into value added products.
- To ensure the safe handling and storage of wastes on University campus
- To provide appropriate training for teacher, resident, staff, students and other Stake holders on waste management issues
- To promote holistic approach of waste management in the campus
